This white hard ferrite hook magnet is the perfect solution for presenting promotional materials stylishly in display areas. With its slim and robust plastic housing, it can be inconspicuously attached to the ceiling or other magnetic surfaces such as shelves, panelling or sales displays. Whether advertising boards or price tags - simply hang on the hook, be it with a chain, cord, eyelet or punch.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
