

Decoration magnets with plastic body

POS magnets made of hard ferrite, round, white

| Article number | D mm | HGes mm | Adhesive force* N | Weight g | Temperature °C | Description |
|----------------|------|---------|-------------------|----------|----------------|---------------------|
| HAMAG-C | 43 | 37 | 120 | 84 | 50 | Haken |
| HAMAG-D | 43 | 31 | 120 | 81 | 50 | Öse |
| HAMAG-F | 43 | 12,5 | 120 | 77 | 50 | Bohrung und Senkung |
| HAMAG-GM4 | 43 | 12,5 | 120 | 79 | 50 | Innengewinde M4 |
| HAMAG-GM5 | 43 | 12,5 | 120 | 79 | 50 | Innengewinde M5 |

For the unobtrusive attachment of promotional materials in exhibition areas, this round hook magnet is ideal. This white hard ferrite hook magnet can be easily attached to ceilings or other ferromagnetic surfaces such as shelves, panelling or sales displays. This provides the opportunity to easily hang advertising boards or price tags. The magnet has a hook to which materials can be attached, be it with a chain, cord, eyelet or hole. This is guaranteed to put the goods to be presented in the right light.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
