G-MAG17NdKÖw	17	22,5	35	7	white	5 piece

Our practical grip magnets with plastic housing and neodymium magnet, especially for use in the office. With their strong adhesive force, these grip magnets provide a reliable attachment for documents, photos, memos and much more. Whether on whiteboards, magnetic walls or other metallic surfaces - these magnets hold everything firmly in place.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
