

Magnetic catches

Magnetic catches for flush screwing

Article number	D mm	L mm	B mm	H mm	Adhesive force* N	Weight g	Temperature °C
MBS12x12	12	12.5		2	6	12.5	60
MBS20x10x5	20	5.5	10	2	15	10	60

APPLICATION:

These magnetic systems are used for the flush screwing into the furniture. They are fixed with a wood screw into the bore. Strong neodymium magnets provide an optimal holding and the supplied rubber cap protects the magnetic core.

PRODUCT INFORMATION:

The systems will be delivered inclusive a suited counterpiece. The coating has a rubber cap for damping function and aesthetic improvement.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
